

STANLIB Collective Investments

# Abridged Annual Report

For the year ending 31 December 2009

# Annual Report

## STANLIB

STANLIB received net inflows of R16 billion for the year and the bulk of these (11bn) went into the Money Market Fund. Assets under management as at 31 December 2009 were R114.9bn.

The success of the year for STANLIB Collective Investments was the STANLIB Dividend Income Fund. In 2009, following on from the 2008 trend, R2 billion flowed into this Portfolio and due to limited capacity it had to be capped during the year.

In the final quarter of 2009, the Standard Bank Offshore Funds were renamed STANLIB Offshore Funds. These Portfolios have been administered by STANLIB since their inception in 2002.

Good performance in 2009 saw STANLIB receive the following seven Raging Bull Awards:

- STANLIB Cash Plus Fund (two awards)
- STANLIB Property Income Fund (two awards)
- STANLIB Industrial Fund
- STANLIB Financials Fund
- STANLIB Multi-Manager was named Offshore Management Company of the Year.

STANLIB remains focused on offering investment performance and service excellence. During 2009, Stewart Rider served as acting Chief Investment Officer of our investment manager, STANLIB Asset Management, and was officially appointed in 2010. In addition, well known and respected investment professional Thabo Dloti was appointed as CEO of STANLIB and Liberty Corporate and Properties in December 2009. He assumed responsibilities in March 2010.

## Industry Overview

Equity markets showed extremely strong growth in 2009, however, the steep decline from September 2008 to March 2009 left many investors wary of equity markets and there were many investors who did not participate in the equity market growth of 2009. This is evidenced in the large amounts of funds that remain in Money Market Funds.

The FTSE/JSE All Share Index returned 32% for the year, the MSCI World Index returned 31% (in US dollars) and the S&P 500 returned 27% for the year in US dollars.

Despite the sombre global picture, 2009 once again saw growth in the local collective investment industry. Assets under management at the end of 2009 totalled R786 billion, an increase of R125 billion from the previous year. There were 904 funds – where STANLIB has a strong representation. Net inflows into unit trusts for the year were a record R96 billion. Of this R10.8 billion was received in local general equity funds and domestic asset allocation funds attracted 31% of the net annual inflows.

Martin Rabe  
Executive: Middle Office

# Trustees Letters

## Report of the Trustee

Report in terms of Section 70(1) (f) of the Collective Investment Schemes Control Act (Act) 2002, (Act No 45 of 2002) ("the Act") for the period 01 January 2008 to 31 December 2008.

### STANLIB Collective Investment Limited ("SBUT")

ABSA Bank Limited trustee of SBUT confirms that we have proper controls in place to give us reasonable assurance that the following are being complied with by the Manager:

- (i) The limitations imposed on the investment and borrowing powers of the Manager by the Act, and
- (ii) In general with the provisions of the Act and the Trust Deed.

However we wish to bring to your attention the following non-compliance issue in the scheme:

- (i) Minor errors and timing differences resulted in some compliance contraventions, which were however immaterial and the portfolios were compensated by the Manager.

We confirm that the portfolios incurred no losses as a result, and no investor has been prejudiced by any contraventions.

Should any investor require the detailed report kindly contact the Manager or the Trustee.

4

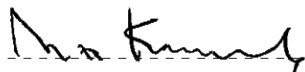

Assalamu Alaikum Wa-Rahmat Allah Wa-Barakatuh

We have reviewed the equity portfolio and activities of the STANLIB Shari'ah Equity Fund for the year ending 31 December 2009. The review was conducted to ensure that the fund is managed in accordance with the Shari'ah guidelines and principles set out by AAOIFI (Accounting and Auditing Organisation for Islamic Financial Institutions).

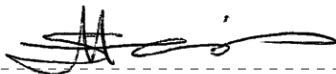

STANLIB Asset Management remains responsible for the management of the fund and it is our duty to ensure they comply with all guidelines and principles set out for them. The Shari'ah Board has reviewed and audited the portfolio and believe that the fund is in compliance with these principles and guidelines.

We therefore consider all the activities conducted by the fund to be in compliance with the Shari'ah.

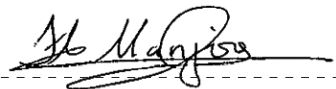

As at 31 December 2009

Professor Dr. Mohammad Hashim Kamall (Chairman)

Sheikh Seraj Hendricks

Moulana Faizal Manjoo

\* Charges are inclusive of VAT

^ The upfront manager charge is levied on debit orders and lump sums below R10'000.

^^ Performance based fee: A minimum of 0.86% to a maximum of 2.57% p.a. is levied on the market value of this portfolio (incl. VAT).

^^^ Performance based fee: A minimum of 1.026% to a maximum of 2.166% p.a. is levied on the market value of this portfolio (incl. VAT).

~ Performance results are calculated using NAV prices with income reinvested for the 1 year period ending 31/12/2009 (current year) and 31/12/2008 (previous year).

#### Upfront Manager charge

The amount of the upfront manager charge is calculated using the relevant rate applicable to each portfolio (see table) of the make-up price (net asset value) of the portfolio.

#### Annual charge

The annual charge is calculated at the rate applicable to each portfolio on the average month-end market value of the total assets of the unit portfolio (excluding income accruals and compulsory charges)."

Copies of the audited Annual Financial Statements of the Management Company and the schemes managed by it, are available free of charge on request.

# Disclaimer

## Net Asset Value (NAV)

Prices are calculated on a NAV basis, which is the total value of all assets in the Portfolio including any income accrual and less any permissible deductions from the Portfolio divided by the number of participatory interests in issue. Permissible deductions include brokerage, UST, auditor's fees, bank charges, trustee/custodian fees and the annual service charge levied by STANLIB Collective Investments Limited ("the Manager").

## Upfront manager charge

The upfront manager charge is deducted from the full investment value and the remaining amount is allocated to the selected investment options. Commission paid to intermediaries is incorporated in the upfront manager charge. Any additional investment will incur an upfront manager charge. The charge is set at a maximum of 5,70% of investments made in the equity portfolios and the asset allocation portfolios, and may range from 1,14% to 3,42% in the fixed-interest portfolios. These charges are all VAT inclusive. In the Standard Bank Money Market Fund, an upfront manager charge of 0.29% is levied on debit order investments and lump sums below R10 000.

## Annual Service Charge (levied monthly incl. VAT)

The annual service charge for the individual portfolios is accrued daily and levied monthly on the market value of the portfolio. Certain portfolios have a performance based service charge which shall be a variable amount that may either increase or decrease, depending on whether the Manager has added or detracted value for the portfolio relative to a passive investment in the portfolio's benchmark. Please refer to the latest fact sheet(s) for more details. The annual service charge is normally deducted from the income received by the portfolios.

## Switching

A "switch" involves selling participatory interests (units) in one portfolio and investing the proceeds in another portfolio. STANLIB Collective Investments Limited does not normally charge upfront manager charges twice, other than in the instance where the original entry was into a portfolio with lower charges than the portfolio into which the investor will be investing. Accordingly, the investor will have to pay in the difference in the upfront manager charges. However, the investor and the representative (intermediary) may agree on a different arrangement to that mentioned above, in which case an initial fee as agreed, between the investor and the intermediary, will be charged on the switch transaction. As costs may change from time to time, please consult with your authorised intermediary.

## Income Distributions

Income distributions are made at regular intervals for all portfolios. Portfolios either declare distributions monthly, quarterly (31 March, 30 June, 30 September, 31 December), half-yearly (30 June, 31 December), or annually (31 December). These distributions are paid on the last working day of the following month or in some cases, earlier. Please refer to the latest fact sheet(s) for more details. Distribution payments will only be made if the value of the payment is above R50. Upfront manager charges are levied on reinvestments.

## Money Market Portfolios

STANLIB Collective Investments Limited will endeavour to give clients access to their cash within a period of 48-hours, provided that there are no outstanding administrative issues between the Manager and the client, that the client has a bank account with Standard Bank, and that the client's repurchase request has reached the Manager before 12h30 on any business day. The Manager will not accept responsibility for not being able to make payment to the client within 48-hours if the above-mentioned requirements have not been met, or the delay was caused due to circumstances beyond the control of the Manager. The minimum transaction amount for this portfolio is R2'000. The initial minimum investment is R25'000. If the balance of the account is below R2'000, any repurchase instruction will result in the total balance being redeemed and the account will be closed. If the balance of the account is above R2'000, any repurchase request below R2'000 will result in the minimum transaction amount of R2'000 being redeemed, in keeping with the new fund rules. Any additional investment below R10'000 will be charged an upfront manager charge of 0,25% (excl. VAT). The reinvestment of income does not attract this charge.

## Electronic Transactions

I/we agree that you shall be entitled to implement all instructions and applications of whatever nature received by you on your Internet site, by telephone, by fax or any other electronic medium and which appear to emanate from me. You are indemnified against any losses, claims or damages arising from you acting on such instructions and/or applications, notwithstanding that it may later be proved that any such instruction was not given by me. I agree that the electronic records of all instructions and applications processed by/or on behalf of myself or which purport to be processed on behalf of myself via your Internet site, telefax, telephone or any other electronic medium shall constitute prima facie proof of the contents of such instructions and applications. The Performance Fee Frequently Asked Questions document is available on [www.stanlib.com](http://www.stanlib.com).

**General**

Collective investment schemes in securities are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. An investment in the participations of a collective investment scheme in securities is not the same as a deposit with a banking institution. A constant price will be maintained for the participatory interests of all Money Market Portfolios. Where exit fees are applicable, participatory interests are redeemed at the net asset value where after the exit fee is deducted and the balance is paid to the investor. A Portfolio of a collective investment scheme in securities may borrow up to 10% of the market value of the Portfolio to bridge insufficient liquidity as a result of the redemption of participatory interests, and may also engage in scrip lending. Where different classes of participatory interests apply to certain Portfolios, they would be subject to different fees and charges. A schedule of fees and charges and maximum commissions is available on request from STANLIB Collective Investments Limited ("the Manager"). Commission and incentives may be paid and if so, would be included in the overall costs. The exposure limit to a single security in certain Portfolios can be greater than is permitted for other Portfolios in terms of the Collective Investment Schemes Control Act, 2002. Details are available from the Manager. A Fund of Funds Portfolio only invests in other portfolios of collective investment schemes, which levy their own charges, which could result in a higher fee structure for these portfolios. A Feeder Fund Portfolio only invests in the participatory interests (units) of a single portfolio of a collective investment scheme, apart from assets in liquid form. The Manager reserves the right to close certain Portfolios from time to time in order to manage them more efficiently. More details are available from the Manager. The holdings of offshore investments in certain portfolios may be subject to current South African Reserve Bank regulations. Forward pricing is used. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. The Manager undertakes to repurchase participatory interests at the price calculated according to the requirements of the Collective Investment Schemes Control Act, 2002, and on the terms and conditions of the relevant Deeds. Payment will be made within 14 days of receipt of a valid repurchase form. Please note that there is a 21-day clearance period for cheques and direct deposits, a 45-day clearance period for debit orders, and a 60-day clearance period for once-off debit orders. Any capital gain realised on the disposal of a participatory interest in a collective investment scheme is subject to Capital Gains Tax (CGT). The Manager is obliged to report on the weighted average cost method for CGT purposes. All portfolios are valued on a daily basis at 15h30 with the exception of some of the Fund of Fund Portfolios and Feeder Fund Portfolios, which are valued at 17h00. Investments and repurchases will receive the price of the same day if received prior to 15h30. The client confirms that neither the Manager nor any of its staff provided him/her with any advice and that he/she has taken particular care to consider on his/her own or with the assistance of his/her authorised FSP (financial adviser) whether the investment is appropriate considering his/her unique objectives, financial situation and particular needs. A copy of the annual report by the Shari'ah Supervisory Board is available from the manager at the request of the investors.

**Trustees**

Absa Bank Ltd., 6th Floor, Absa Towers North (6E1), 180 Commissioner Street, Johannesburg, 2001. Telephone No. (011) 350-4000.

**Statements**

Investors in the Standard Bank Money Market Fund will receive consolidated statements monthly, or quarterly should their investment value fall below R25'000. All other investors will receive consolidated statements quarterly. IT3B and IT3C documents will be sent to investors by May each year.

**Cooling off rights**

Due to the nature of this product, cooling off rights are not offered on this product.
