Initial Questions

8. INVESTING INVOLVES A TRADE-OFF BETWEEN RISK AND RETURNS. IN THE PAST, INVESTMENTS WITH HIGHER RETURNS HAVE BEEN ASSOCIATED WITH GREATER RISK AND CHANCE OF LOSS. WHEREAS CAUTIOUS INVESTMENTS THAT HAVE HAD A LOWER CHANCE OF LOSS ALSO HAVE ACHIEVED LOWER RETURNS. WHICH OF THE FOLLOWING STATEMENTS BEST DESCRIBES YOUR ATTITUDE TO RISK?

1. I am most concerned with risk. I am willing to accept lower returns in order to limit the risk of loss.

2. I am willing to accept some risk and chance of loss in an effort to achieve modest but somewhat higher returns.

3. I am willing to accept moderate risk in order to achieve higher returns. Reducing risk and increasing returns are equally important to me.

4. I want to achieve strong returns on my investments. I am willing to accept somewhat higher risk and chance of loss.

5. I am mainly concerned with getting the highest possible returns on my investments. I am willing to accept significant rises and falls in the value of my investment and significant chance of loss.

9. IMAGINE YOUR ADVISER HAS INVESTED R100,000 OF YOUR MONEY AND IT'S FALLEN IN VALUE TO R80,000. ASSUMING THAT THIS HAPPENS AT AN EARLY STAGE OF YOUR INTENDED INVESTMENT PERIOD, HOW WOULD YOU REACT TO THIS R20,000 LOSS?

| 3. I would wait at least six months before changing to investment options that are more stable. | |
| 4. I would immediately change to investment options that are more stable. | |

- | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 1. I would sell my investments. | |
| 2. I would be worried but not uncomfortable enough to sell my investments immediately. If my investments suffered losses over several months, I would probably sell. | |
| 3. I would wait a full year before making changes to my investments - short-term losses in the value of my investments do not bother me. | |
| 4. I would not make changes - I understand that investments can have occasional negative yearly returns. However, I have a higher chance of reaching my investment goals if I stick with my investment over the long term. | |
